GET YOUR SEWING MACHINES READY!

Stacy Iest Hsu has created the Cut, Sew, Create program to create the next generation of makers, to create self confidence, to create memories and to inspire creativity. 15 projects in all to teach sewing to any age and any skill level.

All projects come packaged with 100% Cotton Panel and Instructions. There are two sizes of peggable polybags with headers (as shown here) depending on panel size for easy merchandising.

See last page for a list of notions that may help get your project started and finished!
