# Bee Grateful Deb Strain

With this new Bee collection, we certainly have a lot to Bee Grateful for! Not just that Bees do so much in the world, but the inspiring way people have come together to protect them. My contribution is that many of the original paintings used to create my Bee collections will be auctioned off with proceeds going to help protect bees.

Bee Grateful adds new patterns and designs to our popular Bee series. Gentle words and sayings are paired with rich, warm colors, and we have included several of the most popular prints from previous groups. The timeless theme of Bees in artwork and creative endeavors continues... something for which we will always Bee Grateful.

## As sweet as honey.
