

JE T'AIME

STACY IEST HSU

What better way to say *I love you* than by saying it in French? **Je T'aime** celebrates vintage romantic love. Beautiful shades of **cream, pink, and red** are featured throughout this collection, along with artwork that captures the charm of romance from the past. From **vintage advertisements** to **elegant floral bouquets**, there is something for every love-inspired project.

This collection also includes **two panels**: a **nine-square floral bouquet panel** and a

sweet vintage mailbox panel—perfect for little ones to send love notes to the people they cherish. There are also **four quilt patterns** in the collection, two designed for the nine-square floral bouquet panel and two returning favorites from past releases.

With **Je T'aime**, you have endless opportunities to create projects that beautifully say **I love you**.
