

# NATURE'S sketchbook

🌰 🍂 ELENA AMO 🍂 🌰

Nature's Sketchbook is a collection straight from my sketchbook, filled with scribbled ideas, quick doodles, and little moments captured on paper. Some sketches are truly messy, but it's fascinating to see them transform into beautiful patterns and fabrics.

Inspired by walks through the forest, pockets full of leaves and acorns, and those fleeting moments when I have a minute to catch an idea, whether at the playground, the gym, or in a quiet moment with a cup of tea, this collection offers a glimpse into my sketchbook world.

Soft blue-greys, warm tans, and earthy browns create a cozy, calming mood, while the rich, vibrant coral of berries and mushrooms adds a lively accent. Forest treasures like acorns, whimsical leaves, flowers, and berries come to life, creating a peaceful collection with a playful spirit, just like the pages of my sketchbook.
