

Continuing the exploration of florals from her previous collection Rise, Melody Miller goes even further in her latest group, Stay Gold. This collection has a full range of scales and colors from the lush large-scale florals of 'Shimmer,' to rich tonal 'Meadow' and 'Sparkle' prints, to several tiny supporting prints. Dramatic flowing rayon prints are made for dresses and caftans, and a bold floral canvas is perfect for more structured projects. Three new colors have been added to Melody's Spark palette to support the collection. See the Stay Gold Panel on the following spread.
