"A drop on ink may make a million think"

Inspired by this quote from Lord George Gordon Byron, the Think Ink collection is a sequel to the oh-so-popular Sew Happy line. Sewers and quilters were taken by the pureness of elegant black, the natural look of cotton, and the touch of gold.

Think Ink has an elegant and minimalistic feel, industrial even. The sturdier canvas with the dotted and striped prints works especially well for home decor projects, like pillows or furniture covers. Bags and tableware will also shine with these fabulous fabrics.

Think Ink includes two panels with eleven "cool quotes" to choose from. Frame these inspiring words in contemporary black to brighten up any room. They might even inspire you to re-think possibilities and beliefs.
