

# wild honey

*Lella Boutique*

Where wildflowers grow, the bees will follow. Here's to sun-drenched afternoons, meadows bursting with color, and air that hums with the happy buzz of bees. This collection is a love letter to nature's little pollinators, celebrating the beauty of untamed flowers, the delicate geometry of honeycomb, and a sprinkle of playful beekeeping buzzwords. With a palette as warm and golden as real honey, these sunlit hues bring a cheerful glow to any project. Let the sunshine in and get ready to buzz with creativity.
